Daily Needs

Students who prefer to reside at the on or off-campus dormitories enjoy the benefits of keeping track of or actively participating all social, cultural and sports activities

CLOTHING

Academic year at Eastern Mediterranean University begins in early October and ends in July. The temperature ranges between 5 and 35°C; due to the scarcity of rainy days students do not necessarily need very thick clothing, but can suffice with light weight outfits. The dormitory rooms have air-conditioners and all bed sheets and blankets are provided by the dormitory management. Students need only to bring their clothing and personal items with them. In addition, students can always meet their needs from shops located close to the campus.

In all the on and off-campus dormitories, there are cafeterias, canteens and similar places where students find variety of foods. Additionally, students may benefit from the Table d'Hote restaurant run by the University or, if they prefer, can prepare their own meals in kitchen facilities provided in each dormitory.
